Native Plants

The flora of Oman is uniquely rich with a high degree of endemism. About one-fourth of the total flora of the country is found in Al Jabal Al Akhdar range above 1500m in the Olive-Juniper woodlands. Thus, the mountain exhibits high species diversity. They represent a key biodiversity region within the Arabian Peninsula.

Lounge

Sahab Lounge provides the ultimate in comfort, overlooking the spectacular indigenous garden. Upon arrival, guests will be welcomed in traditional Omani style with Omani qahwa (coffee and dates).

Restaurant

Our restaurant offers an intimate, tranquil dining experience, a large selection of international and selected local dishes are available with a choice of indoor/outdoor dining.

Poolside

Light menus, refreshments and cocktails can be enjoyed from early morning throughout the day, a spectacular spot for sunbathers.

Caralluma Café

Next to the reception area the Caralluma café offers light meals, sandwiches and refreshments. An 18 meter strip of marine fossils are featured in the café (Fossilized coral and other ancient sea creatures were found and preserved during the construction of the hotel).

Food and Beverage
